MOTTURA **b** TECHNOLOGY

The Mottura bTECHNOLOGY range represents Mottura's continuous innovation in the motorised lock sector that today meets **wireless transmission**.
The new electronic access controls, in fact are **completely wireless** and communicate with each other via BLE (**Bluetooth Low Energy**) connection.

The best technologies are used to guarantee comfort and protection: Bluetooth, Cloud, App, numeric keypads, fingerprint readers, transponder cards and Bluetooth remote controls.

Thanks to the bWEBTECHNOLOGY web app, for connection from a PC, and the bMOTTURA app, for connection from a smartphone, it is possible to **remotely manage** locks and accessories. Furthermore, it is possible to create **opening codes**, change settings and check the health status of the locks through an **integrated diagnostic system**.

b DIGIT

bDIGIT is the **Bluetooth numeric keypad**, associated, controlled and managed by the bMOTTURA app and the bWEBTECHNOLOGY web app.

b TRACK

bTRACK is the **Bluetooth biometric fingerprint reader**, associated, controlled and managed by the bMOTTURA app and the bWEBTECHNOLOGY web app.

Solutions for every need

Mottura bTECHNOLOGY security solutions,
both motorised and digital, adapt to various needs
and applications. There are no limits
to the customisation of control systems.

| DRIVEWAY GATE | GARAGE DOOR SWING | PEDESTRIAN GATE | ENTRANCE DOOR |

bKEY

bKEY is a **Bluetooth remote control**,
with or without a key inside, that is paired,
controlled, and managed via the bMOTTURA
app and the bWEBTECHNOLOGY web app.

bBRIDGE

Thanks to the integrated Bluetooth and
Wi-Fi connections, bBRIDGE, connects all the
devices in the range via the Internet allowing
you to control them from anywhere.

ARMOURED
DOOR

bTAG

bTAG is a **transponder reader** controlled
and managed by the bMOTTURA app and
the bWEBTECHNOLOGY web app.

**Discover
the products**

b NOVA

bNOVA is a **smart motorised lock for armoured doors**, featuring Bluetooth Low Energy technology. It is controlled and managed via the bMOTTURA app and the bWEBTECHNOLOGY web app.

---

b BLOCK

Knob version

Handle version

bBLOCK is a **smart mechatronic lock** designed for European cylinders, available in both knob-knob and key-knob versions for armoured doors.

---

b MOTO

bMOTO is a **smart motorised knob** which can be installed on all types of doors, provided they are equipped with a friction key-key or key-shank cylinder.

---

b OPEN

9-12V AC/DC   RESET   RELAY

bOPEN is a **smart relay with Bluetooth** which connects via a clean contact to all electronic locks and electronic strikes.

Management via web app (desktop) and smartphone.
